UI/UX DESIGNER

With 2+ years of experience in digital design and visual communication, I specialize in creating clean, user-friendly UX/UI designs for web and mobile products. Skilled in wireframing, prototyping, design systems, and visual branding, with the ability to turn business goals and user needs into clear, consistent, and usable interface designs.

SKILLS

// UX/UI SKILLS

- User Flow
- Wireframing
- Prototyping
- UI Design
- Design System
- Responsive Design

// PROFESSIONAL SKILLS

- Requirement Analysis
- Stakeholder Communication
- Team Collaboration
- Problem Solving
- Research & Analysis
- SIT / UAT Support

WORK EXPERIENCE

UX/UI Designer

Innotech Solution | March 2025 – Present

Designed UX/UI for enterprise web and mobile systems, including Demand & Supply Chain Financing, Supply Chain System and Backend CORE MIS. Created user flows, wireframes, prototypes, and business process flows to support product development.

Key responsibilities:

- Designed user-friendly interfaces for web and mobile applications.
- Created user flows, wireframes, prototypes, and design documentation.
- Worked with business, development, and QA teams to clarify requirements.
- Supported SIT and UAT by reviewing test scenarios and validating user flows.

Web Developer Intern

Glean Asia | November 2024 – February 2025

Worked as Team Lead and Frontend Developer for FRINT, an interview preparation platform for students. Supported user research, UI design, frontend development, and deployment.

Key responsibilities:

- Designed and developed responsive web interfaces.
- Conducted problem identification, user research, and user analysis.
- Developed frontend features using Next.js, TypeScript, and Tailwind CSS.
- Deployed the application on Vercel and supported production workflow.
